

R-tech Software Solutions

India and overseas services

 @rtechpvt solutions |  rtechpvt solutions@gmail.com |  +91 91771 95797

Our goal is to provide quality software products for society.

We will create a personal branding website for the stores, agencies, shops, malls, restaurants, schools, colleges, hospitals, many primary and secondary institutions.

Official Policies & Service Constraints

- We give you 6 months of free maintenance and support after your project is delivered.
- During this time, small updates and fixes are free of charge.
- Big changes or new features after 6 months will have extra costs, based on the work needed.
- Hosting services (Google) can be added for an extra fee.
- Domain name, SSL, and hosting need to be renewed every year – Mandatory.
- Yearly upgrades keep your website safe, fast, and friendly for Google search.
- We always share costs clearly before starting, so there are no surprises.
- We aim to give you long-term, reliable support for your business.

Website Development

We design and develop modern, responsive, and SEO-friendly websites tailored to your business needs.

- Business & personal branding websites
- E-commerce websites
- Portfolio & landing pages
- Mobile-friendly and fast-loading designs

AI Agents & Smart Automation

We create AI-powered agents that help automate tasks and improve customer engagement.

- Customer support AI agents
- 24/7 automated responses

Maintenance & Support

We ensure your digital presence stays smooth and updated.

- Free maintenance for initial period
- Regular updates & performance checks
- Long-term support plans available

Serving India & Overseas

We proudly offer our services to clients across India and internationally, delivering quality, reliability, and on-time solutions.

Client Requirement – Product Selection

Type of Website Required

Static Website (1500-2000rs)

A single-page website where menu items scroll to sections on the same page.

- Best for small businesses & basic online presence
- Faster and cost-effective

Dynamic Website (1800-2500)

A multi-page website with *interactive navigation and separate pages*.

- Best for growing businesses
- Supports advanced features and scalability

Client Collaboration

- Transparent communication at every stage of development.
- Regular progress updates and milestone reviews.
- Flexible customization based on client feedback.
- Dedicated support team for queries and assistance.

Declaration:

- This document is created to ensure clear understanding and smooth collaboration between both parties.
- All services are delivered based on the mutually agreed scope, budget, and timeline.
- If you need any changes or additions later, we'll discuss and confirm them transparently before proceeding.
